

Brickview Studios: Registration form

*****About Brickview Studios*****

" We at BrickView Studios, help businesses and brands to get ready for the inevitable future dominated by AR and VR. "

Brickview Studios is a Kolkata based AR-VR company focused on the innovative solution for our clients through which they stand out of their competitors. Imagination and Implementation are the keywords which strengthen our profile for future aspects, To fulfill this vision we recently joined the family of Nasscom 10k startup. With the tagline " Imagination to Reality", we are on our way.

Company Website: <https://brickviewstudios.com/>

LinkedIn Link: <https://www.linkedin.com/company/brickviewstudios/about/>

*****Roles and Responsibilities*****

A strong MERN-stack developer is needed to work on a full-stack development project, who would get a chance to build software products from the ground up. Have a steep learning curve of working with Backend and FrontEnd complex architectures. Have a big Say in all the tech decisions - choosing frameworks, data, scaling up how to build internal/external web-services.

While working in React.js and Node.js with Javascript, you should also have some sort of Database knowledge. MongoDB is preferred, but a knowledge of at least one other is acceptable.

- >Knowledge of React.js and Node.js
- >JavaScript Expertise
- >Ability to work with both front and back-end developers
- >RESTful API Development
- >Ample Communication Skills
- >Ability to easily work on a team
